

\$65,000 FOR DUAL PURPOSE SIRE

PB190678 held by Joe Gerritsen and photographed with Justin Campbell (AFA), Andy Maclean (HR), Stuart Murdoch (HR) and Forbes Murdoch (AFA)

The dual purpose potential of PB190678 was identified early on in 2020 and he was earmarked for inclusion in the Adelaide Ram Sale, the AFA Stud Management believing him to be a ram of special interest to the industry.

However, 2020 being the year that it was, travel restrictions ultimately led to PB190678 being a late withdrawal from Adelaide and we resolved to retain him in the Stud Flock and included him as a display ram at our sale day.

The one trip we were able to undertake in 2020 was in August to the Dubbo Ram Sale and Merino Exhibition. It was while he was here that the Haddon Rig Stud Team inspected PB190678 and had been impressed by his scale, while still remaining very correct and balanced, and had recognised that he was growing a high quality fleece, which was a true medium wool and a very good fit for the Haddon Rig type.

With no opportunity to buy at auction, Haddon Rig's Andy Maclean and Stuart Murdoch travelled to Boonoke for the AFA Ram Auction and negotiated the private sale of PB190678, going to \$65,000 to secure him. This continues a significant investment in the development of the Haddon Rig Poll Stud, which has included prior sire purchases from the Poll Boonoke Stud.

Genetically tested as a PP ram, PB190678 (SG ID 6000012019190678) was sired by Willandra Poll 170018 and his 2020 side sample measurements were FD 19.7, SD 3.1, CV 15.7 and CF 99.7. Examining the 21 June 2021 ASBVs, PB190678 was in the top 5% for Clean Fleece Weight, the top 1% for Post Weaning Weight and Yearling Weight and the top 10% for the MP+ and DP+ indexes. Semen is available by contacting the management team at either AFA or Haddon Rig.

DOUBLE SHOWING FOR POLL BOONOKO IN TOP 25 HIGH USE SIRES

In March 2021 the Australian Merino Sire Evaluation Association (AMSEA) released a listing of the Top 25 High Use Sires that had been entered into Merino Sire Evaluation sites across Australia between 2015 - 2019.

Of the eligible 351 Merino Sire Evaluation entrants, two influential Poll Boonoke sires, PB150026 and PB160612, ranked in this list at 14 and 21.

The list was compiled from data in the MERINOSELECT analysis; identifying the number of progeny for each sire entered into the database and also tallied the number of flocks that had utilised the sire.

The MERINOSELECT database includes 2,629 progeny from 24 flocks for the two Poll Boonoke rams. Having sold in excess of 5,600 doses of semen from these two sires, including to repeat buyers, we know that the influence of PB150026 and PB160612 is broader than just those animals identified in the MERINOSELECT database.

Both sires continue to be utilised in the Poll Boonoke Stud flock with lambs on the ground again this year. Sixteen sons of PB160612 were amongst the 2020 drop March shorn rams that went into the Ramshed earlier this year.

With more than 200 doses of semen sold from both rams in 2020 their direct influence across the industry is set to continue for some time yet.

PB160612 - Photographed as a four year old in 2020

RIVERINA MERINO ON PROPERTY OPEN DAY

The Wanganella & Poll Boonoke Studs will be participating in the Riverina Merino on property Open Day initiative again in 2021; having found it to be a well received and beneficial pre auction day inspection opportunity for clients in 2020. The Wanganella & Poll Boonoke Open Day will be held at Boonoke in the Woolshed yards on **Thursday 2 September 2021 between 9 am and 4 pm. The entire auction team will be on hand for your inspection.**

2020 RAM AUCTION

Negotiating the private sale of display ram PB190678 to Haddon Rig for \$65,000 was an encouraging start to our 2020 sale day; and the total clearance of the 200 auction rams offered to a top of \$13,000 and for an average of \$3,493.75 was an excellent finish.

Thank you to all of the successful buyers, underbidders and advisers who supported our 2020 auction and to the purchasers of our 2019 drop flock grade rams. Facilitating the inspection of our 2019 drop rams proved to be challenging last year (and may well prove to be again this year), so we appreciated your business in what were strange operating times.

The final break down of our 2020 auction was:

- 200 AFA rams offered and sold
Top of \$13,000, 200 rams averaged \$3,493.75
16 shedded rams averaged \$8,062.50
184 paddock rams averaged \$3,096.47
- 60 Wanganella rams offered and sold
Top of \$13,000, 60 rams averaged \$3,554.17
6 shedded rams averaged \$7,666.67
54 paddock rams averaged \$3,097.22
- 140 Poll Boonoke rams offered and sold
Top of \$12,000, 140 rams averaged \$3,467.86
10 shedded rams averaged \$8,300.00
130 paddock rams averaged \$3,096.15

Poll Boonoke 190044 & Poll Boonoke 191348

PB190044 – FD 20.9, SD 3.4, CV 16.3, CF 99.3
Equal top priced Poll Boonoke ram, \$12,000
PB191348 – FD 19.9, SD 3.5, CV 17.6, CF 98.7
Sold for \$11,000
Purchased by Almondvale Poll Stud, Urana, NSW

Photographed with Alastair Provan (AFA Chairman), Paul and Peter Routley (Almondvale Principals), Joe Gerritsen (AFA Stud Manager), Stephen Chalmers (Almondvale Classer)

Wanganella 190385 x W170470

FD 19.6, SD 3.3, CV 16.8, CF 99.6
Top Priced Auction Ram \$13,000
Purchased by Willandra Merino Stud, Jerilderie, NSW

Photographed with Chris Bowman (Willandra Stud Classer), Ross Wells (Willandra Stud Principal), Alastair Provan, (AFA Chairman), Joe Gerritsen (AFA Stud Manager)

Poll Boonoke 190058 x PB130028

FD 17.0, SD 3.7, CV 21.8, CF 99.2
Equal top price Poll Boonoke ram, \$12,000
Purchased by GR Mullighan & Co, Clare, SA

Photographed with Chris Bowman (Classer), Alastair Provan (AFA Chairman), Joe Gerritsen (AFA Stud Manager)

Wanganella 192250 x W170084

FD 19.6, SD 2.9, CV 14.8, CF 99.8
Sold for \$12,000
Purchased by Woolkabin Stud, Katanning, WA

Photographed with Justin Campbell (AFA GM), Forbes Murdoch (AFA Stud Master), Lachie Barrett (AFA Stud Overseer)

Wanganella 190304 x W170470

FD 20.4, SD 3.6, CV 17.6, CF 99.1
Sold for \$10,000
Purchased by Kiwarra Stud, Weethalle, NSW

Photographed with Alex Karsten (Kiwarra Principal) and Angus Munro (AFA Stud Breeding Manager & Kiwarra Stud Classer)

VALE BILL MILDREN 1940 – 2021

A familiar and respected identity in the sheep industry, the passing of Bill Mildren in June 2021 has robbed us of an experienced sheepman, a steady yet innovative mentor, a strong sounding board and, most importantly, a valued friend.

Bill grew up on stations in Queensland, but jackarooed in NSW, moving between Warren, Nyngan and Deniliquin. Stepping up to an Overseer role Bill returned to Queensland, and more specifically the Isis Downs Stud at Blackall, but in 1963 Bill headed south again to the NSW Riverina, where he was to Overseer under Tom Cully at Wonga. This broad education in Stud Merino breeding and pastoral management; combined with Bill's natural affinity

for sheep and people, shrewd insight and commitment to breeding profitable sheep led to Bill developing an enviable classing run that encompassed thousands of sheep in four states.

We reflected on Bill's career in our 2020 Newsletter, saddened at the time that sudden illness had restricted his capacity to wind down his long and distinguished career in the manner that he had planned and deprived him of a carefree, healthy retirement.

Now we mourn the loss of Bill. He was a proud family man; a thoughtful, practical sheepman; a wise counsellor for his clients and colleagues; an enthusiastic tutor and guide for the young; a vault of knowledge and stories; a gentleman; and a faithful friend.

Greatly missed, never forgotten.

PRODUCTIVE • BALANCED • MEASURED

By Angus Munro, AFA Stud Breeding Manager

ASBVs

Initially we offered Estimated Breeding Values for the 2013 drop Wanganella and Poll Boonoke stud rams. Subsequent stud progeny drops have been included in the MERINOSELECT Australian Sheep Breeding Values (ASBVs), with the staged inclusion of additional measurements each year as we have identified the data most beneficial to us, and our clients, and developed our system to collect accurate and reliable information.

In addition to expanding the data utilised in the creation of ASBVs for the Wanganella & Poll Boonoke sheep, we have boosted our commitment to the data by investing in genomic testing, again on a staged basis, until we have reached a level that we are comfortable with.

The data program varies for the differing management groups within the studs, but at this point we have settled on the following protocol regarding the data and DNA we collect:

Data

- Wool: fleece side sample tests, greasy fleece weight and staple length.
- Carcass: post weaning bodyweight, yearling bodyweight and yearling scanning of eye muscle and fat.
- Visual: breech wrinkle and breech cover scores.

Genomic Testing

- Full test: ET bred lambs, shedded rams, selected stud sires and ET donor ewes.
- DNA test: AI bred lambs, special stud ewes, syndicate bred rams classed as potential auction rams each February.

The significant investment of time and money required to participate in MERINOSELECT is directed at assisting clients to achieve their breeding goals through their sire selections by providing data to support their visual assessments.

Our stud team utilise the data as an additional benchmarking tool to compare our progeny by sire.

ASBVs are generated from the data, pedigree and genomic information collected by Sheep Genetics members to provide a prediction of genetic merit. They are an indication of how an animal's progeny will perform based on the genes they will pass on. ASBVs estimate what genes an animal will on average give to their offspring.

Indexes combine important production traits into one number. They are created by putting a weighing on each trait, depending on how important they are, and the breeding value of each animal is multiplied by this weighting to create a single number that is useful for ranking animals.

Merino Superior Sires (MSS) is an evaluation program that compares the breeding performance of nominated sires by evaluating their progeny through a large number of expressed traits that have been identified as of importance by stud and commercial breeders.

Merino Sire Evaluation (MSE) program is a national program that is currently operating at 9 sites across Australia, 5 of which are also hosting the **Merino Lifetime Productivity (MLP) Project**.

The **Australian Merino Sire Evaluation Association (AMSEA)** manages both the MSE program and the MLP project at a national level. The AWI funded **Merino Lifetime Productivity (MLP) Project** is designed to capture lifetime data across diverse environments and Merino types to help better understand and deliver Merino ewe lifetime performance outcomes for the Australian Merino Industry. The project is a 10 year partnership between AWI, AMSEA, nominating stud breeders and site hosts.

Sire Evaluation/Trials

The AFA Stud Management Team also recognise the value of the Sire Evaluation scheme as another beneficial benchmarking tool. Since 2016 we have been fortunate to include our sires at the following evaluation sites:

- PB120020 - MerinoLink (Temora) 2016 Drop Merino Lifetime Productivity Project
- W130816 - Macquarie (Trangie) 2017 Drop Merino Lifetime Productivity Project
- PB150026 - South Australia 2017 Sire Evaluation
- W150610 - Macquarie (Trangie) 2018 Drop Merino Lifetime Productivity Project
- PB160536 & PB160612 - Balmoral 2020 Drop Sire Evaluation
- PB160612 - MerinoLink (Bathurst) 2021 Drop Sire Evaluation
- PB190678 - Muresk, WA 2021 Sire Evaluation

Poll Boonoke 150026 x PB130028

Wanganella 150610 x W130750

Lachie Barrett Winner - Junior Judging Hay Sheep Show 2021

Peter Nadin

George Sinclair

LACHIE WINS JUNIOR JUDGING

Now the AFA Stud Overseer after two years with the Studs, Lachie Barrett put his working knowledge to the test in the Junior Judging competition at the 2021 Hay Sheep Show and came up trumps winning the Don McNeil Memorial Trophy for Junior Judging.

We are fortunate to have three enthusiastic young men employed in our Stud business. Lachie, in his third year at AFA, is the oldest at 22 years of age. Peter Nadin is in his second year and as the stud groom this year is hoping he will have more opportunity to travel with the shedded rams than Lachie did in the same role last year. Peter recently received the Encouragement Award after competing in the 2021 Hay Sheep Show Blade Shearing Competition (a competition that Chris Bowman won and Justin Campbell placed second in). In his first year out of school, our newest recruit is George Sinclair, who we were delighted to bring into the team full time in 2021 having previously hosted his work experience placement.

MerinoLink MLP 2016 & 2017 Drop Report November 2020

The F1 ewe progeny of **PB120020** (2016 Drop Evaluation) ranked in the top 3 for their Raw CFW and Adjusted Sire Average CFW measurements in the yearling and the second, third and fourth adult stages. PB120020's ewe progeny were also in the top 3 for eye muscle diameter at the hogget and third and fourth adult stage.

Macquarie MLP 2017 & 2018 Drop Report March 2021

The F1 ewe progeny of **W130816** (2017 Drop Evaluation) ranked in the top 3 for their Raw CFW in the 4 measured stages of post weaning, hogget, adult 1.5 – 2.5 years and adult 2.5 – 3.5 years. In the adjusted sire means the CFW of the ewe progeny were in the top 3 for their hogget and 2nd adult weights. W130816's ewe progeny were also in the top 3 for bodyweight at the hogget, first adult pre joining and third adult pre joining stages. In the Adjusted Sire Mean for body weight, the F1 daughters of W130816 were in the top 3 of the evaluation for their weaning, hogget, first adult and third adult weights.

The F1 ewe progeny of **W150610** (2018 Drop Evaluation) ranked in the top 3 for both their GFW and CFW raw data measurements at the three reported stages of post weaning, hogget and first adult. This result was replicated in the Adjusted Sire Mean for their GFW and CFW measurements. In what is a rare result and indicative of a sire with a very good balance of traits, W150610 ranked in the top 3 in all of the Within Site and Within Drop Indexes of DP+, MP+, FP+ and WP+. These indexes are calculated using both the F1 ewe and wether progeny of the sire.

The inclusion of wethers from the Boonoke commercial Merino flock in the Australian Merino Production Trial 2021/2022, at both the Wagga Wagga and Condobolin sites, will be another genetic appraisal opportunity for the AFA Stud Team to consider. The Wanganella blood Boonoke commercial flock is one of 35 teams entered, with Poll Boonoke clients, the Finlay Family at Morven, NSW, also entering wethers in the trial.

Poll Boonoke Prime Family

The first lambs of a newly established Poll Boonoke Prime breeding family will drop in 2021. Searching out a distinctive Merino type and utilising available industry data, Poll Boonoke ewes tending towards an almost exaggerated plain, large body have been identified and joined to specially selected sires for this lambing. The breeding objective for the Poll Boonoke Prime Family shifts the focus to developing exceptional meat/carcase traits on easy care, extremely plain bodies with an emphasis on outstanding fecundity while maintaining wool characteristics. The Poll Boonoke Prime Family initiative is aimed at supplying Merino breeders looking to move beyond the dual purpose qualities of the Wanganella and Poll Boonoke sheep and magnify the carcass attributes of their flock without sacrificing wool quality.

Merino breeding engages you in an interesting and innovative industry with exceptional sustainability, however, the commercial reality is that superseding every other breeding motivation is flock profitability. There is an abundance of information and opinions available about every aspect of Merino breeding, but with 73,000 Merino ewes joined in the AFA business the Stud Management Team remain firmly focused on breeding Merino sheep to maximise economic returns. We are fortunate to have such an experienced Stud Management Team navigating the direction of the Wanganella and Poll Boonoke sheep. Productive, Balanced, Measured remains the key to our stud breeding objectives ... and in that order.

Boonoke Commercial 2015 Drop Ewes Black Sandhill Yards, Boonoke, Conargo

Pen of Three Ram Weaners, Hay Sheep Show 2021, with the AFA Stud Team

DUAL PURPOSE WIN AT HAY

The excitement of loading up a selection of shedded 2020 drop rams and heading off to the Hay Merino Sheep Show on 19 June 2021, following a disappointing year of cancelled Merino sheep shows and field days, was intensified by Poll Boonoke's 4th win of the Ian Lilburne Sheep Classing Trophy.

A relatively new class in the Hay Sheep Show schedule, the trophy is awarded to the winner of the Pen of Three Ram Weaners, which is branded a Dual Purpose Event, and is for March Shorn Rams showing their lambs teeth judged along dual purpose lines of 50/50 meat and wool. Poll Boonoke has won the title for the last three shows and four times in total, with two seconds and a third to make up the tally for the last seven shows, which attracts a fabulous line up of stud sheep each year from NSW, Victoria and South Australia as well as the impressive flock sheep entries from the local district.

PURCHASING WANGANELLA & POLL BOONKE RAMS IN 2021

AFA RAM AUCTION 60 WANGANELLA & 140 POLL BOONKE

Wednesday 15 September 2021

Inspection from 9.30 am

Auction commences at 12.30 pm

Auction interfaced on AuctionsPlus

ASBVs: Auction rams will be displayed with ASBVs sourced from the MerinoSelect 21 August 2021 database analysis.

Auction Catalogue: An easy to print catalogue format will be available online in early September. A printed catalogue booklet will be available on auction day. Contact Robyn at the Boonoke Office on 1800 675 729 or rsmith@austfood.com.au if you would like a copy of the catalogue forwarded to you.

Auction Agents: Elders and Nutrien, Deniliquin will be the agents in conjunction for the auction. Elders will settle the 2021 auction. Rams are auctioned at prices exclusive of GST, with GST added to the invoice.

Outside Agents: A 3% rebate is offered to Outside Agents who advise the details of potential purchasers prior to 9 am on auction day to the Boonoke Office or the Auction Agents, and settle an auction ram purchase on behalf of that client within 7 days. A 1% rebate is offered to Outside Agents who settle an auction ram purchase invoice on behalf of a client within 7 days.

AuctionsPlus: The 2021 Ram Auction will again be interfaced on AuctionsPlus. Potential buyers wanting to use AuctionsPlus must ensure that they have registered and completed the AuctionsPlus Buyer Induction Course. auctionsplus.com.au

Topping Up: For Auction Buyers unable to secure their total ram requirement during the auction, a limited number of \$1,800 + GST rams will be available for selection at the Ramshed after the auction to finalise orders, as will a selection of \$1,050 + GST flock grade rams at the Boonoke Woolshed. See one of the AFA Stud Team at the conclusion of the auction if you need to make a selection.

Pre Auction Inspection: If you are unable to attend the Open Day on 2 September, please contact one of the AFA Stud Team to arrange a pre auction inspection of the rams.

PRIVATE SELECTIONS OF GRADE RAMS

Appointments available from

Thursday 16 September 2021

2021 grade prices are

\$1,800 + GST, \$1,050 + GST & \$850 + GST

Selection Appointments: Appointments to select Flock Grade Rams can be arranged by submitting a ram order form (an online option is available at www.austfood.com.au) or by contacting Angus Munro or the Boonoke Office with your ram requirements; we will then confirm a selection appointment date and time with you.

Ram Deliveries: We highly recommend that you take your rams home after the auction or a private selection, but for those clients who require it we will arrange district deliveries of rams and they will be delivered off shears.

Health Status: The Wanganella & Poll Boonoke Merino Studs are Ovine Brucellosis Accredited Free Flocks and have an OJD MN3 Flock Status in the National Johnes's Disease Market Assurance Program. The Wanganella and Poll Boonoke Studs are Owner Declared Footrot Free.

Semen Marketing Rights: Australian Food & Agriculture Company Limited retains 50% semen marketing rights from all Wanganella & Poll Boonoke rams sold either by auction or private treaty, unless otherwise varied by negotiation prior to sale.

IN 2021 THE WANGANELLA & POLL BOONKE RAMS WILL BE AT:

Midstate Merino Field Day
Tuesday 27 July Marra Hall

Sheep Connect
2 & 3 August Hamilton Showground

Nyngan Ag Expo
Saturday 7 August Nyngan Showgrounds

Riverina Sheep Expo **Friday 13 August**
Edward River Oval, Deniliquin

National Merino Sheep Show & Exhibition
24 & 25 August Mudgee Showgrounds

South West Slopes Merino Breeders Field Day
Tuesday 31 August Harden Showgrounds

Wanganella & Poll Boonoke On Property Open Day
Thursday 2 September Boonoke Woolshed, Conargo

Westech Field Days 2021
7 & 8 September Barcaldine Showgrounds

Adelaide Royal Show
8 - 10 September Adelaide Showgrounds

On Property inspections of stud stock available by prior arrangement.

FOR THE RECORD

In excess of 100 years of Wanganella breeding was on offer when Shaun Larkings and Janine Fisher dispersed 1,173 classed breeding ewes from their property 'Glenrovan' at Tottenham, NSW in March 2021 via AuctionsPlus. Joined to Wanganella rams and August shorn, the entire offering was sold to a single buyer who went to \$417 to acquire 354 3-year old ewes and \$407 for 266 4-year olds. The Wanganella Stud has been greatly honoured by the four generation commitment of the Larkings family to the Wanganella bloodline and our best wishes go to Shaun & Janine in their new endeavours.

Congratulations to the MacDonald Family at Blackall, Qld who exhibited the Champion Ewe at the Blackall Show, Tambo Show and Queensland

State Sheep Show at Longreach this year. Chris Bowman selects rams from Wanganella & Poll Boonoke for the Bloomfield flock.

Peter & Meegan McCarten and Family continued their strong performance record in the 2021 Lake Cargelligo Maiden Merino Ewe Competition, placing 2nd. Their Wanganella blood Nargoon flock is classed by Michael Elmes.

Tom Simpson, Hay, NSW was very pleased when he sold 490 Wanganella blood wethers for \$176.60 at Griffith in September 2020.

Towalba Merino Stud exhibited the Grand Champion Ram and Supreme Exhibit at the Warren Show in June 2021, their champion 4 tooth ram being an AI son of Wanganella 151992. Congratulations to the Kopp Family and their Stud Classer, Chris Bowman.

FORBES MURDOCH - 20 YEARS AT AFA

In July 2001, cutting short his retirement, Forbes Murdoch, OAM, accepted an invitation to class for the Boonoke Merino Stud, so his remarkable career in the Merino industry now includes 20 years working in the Riverina. In late 2004 AFA Chairman, Colin Bell, appointed Forbes to the position of Stud Master, giving him the responsibility for classing and directing the breeding programs for what at the time were the three FSF Studs - Boonoke, Poll Boonoke and Wanganella. One of Forbes' most momentous undertakings whilst at AFA was to reunite the Boonoke & Wanganella stud ewes back into a single stud flock - 130 years after the Peppin's Wanganella stud flock was drafted up for new owners the Austin (Wanganella) and Falkiner (Boonoke) families. There have been numerous broad ribbons awarded to the AFA show sheep over the last 20 years; including many Grand Champions at the various shows attended, Australian Supreme Merino Ram, a string

of Riverina Rams of the Year, Australian Champion Hogget Merino Ram at Hay Sheep Show and the Champion March Shorn Australian Merino All Purpose Ram at the Australian Sheep & Wool Show. Over the last 10 years in particular, genetics from both the Wanganella & Poll Boonoke studs have been used extensively across Australian stud flocks via ram and semen sales, further magnifying Forbes' influence across the Australian Merino industry during his career. Colin Bell said of Forbes Murdoch, "....Forbes is a stand out for his skill, passion and natural Merino intuition and his place in our industry is unsurpassed." Forbes has been integral to the development of the Wanganella & Poll Boonoke sheep, we have been very fortunate to benefit from his Merino wisdom and experience at AFA for the last 20 years and we look forward to him continuing to be a key member of the AFA Stud Team for years to come.

SEMEN SIRES Semen orders can be placed online at www.austfood.com.au

In addition to PB190678, sold by private treaty to Haddon Rig in 2020, some of the other 2019 drop rams that we used in our in our own breeding program and who now have lambs on the ground follow. COVID meant that their inspection as a shedded ram last year was limited, but as for PB190678, semen is available. They are in the Ramshed again this year, so contact one of the Stud Team if you would like to inspect them.

POLL BOONOKE 190084 (PP)
SIRE: W170018

Tested	FD	SD	CV	CF	BWt (15 mths)	EMD (15 mths)	FAT (15 mths)	
2020	21.2	3.2	15.1	99.5	116.0	43.3	5.5

Acc%	80	66	75	76	65	59	36	33

Poll Boonoke 190084 is an ET bred son of Willandra Poll 170018. He has a pure face and eyes, and a long muzzle. A plain bodied, well shaped ram, he has a straight topline with extra width across the loin and an ideal square behind. PB190084 has tremendous length of staple and bright, shafty wool on a productive skin. He is a bold medium wool dual purpose sire.

WANGANELLA 190305
SIRE: W170470
